

## Nice Bridge Approach Improvement Project Begins On/About Nov. 17

The 18-month project includes:

- Paving and making other improvements in both directions for a smoother ride and improved traffic flow through the toll-plaza area.
- Replacing and upgrading tollbooths and safety features at the toll plaza.
- Improving landscaping and signing at the facility.

Construction will begin on or about Nov. 17 and will necessitate temporary closures to travel lanes, toll lanes or shoulders:

- From 9 a.m. to 3 p.m. and from 8 p.m. to 5 a.m. Monday through Friday. Traffic will be maintained in both directions.
- No lane closures will be permitted the day prior to, the day of, or the day after a major holiday.
- During construction, crews may periodically perform flagging operations to direct traffic through the open lanes.
- Wide-load restrictions may be in effect during construction hours. Drivers of wide-load vehicles should wait for police escort at the One Stop Auto Truck Plaza. Additional information will be listed on the permit issued by the State Highway Administration.

*The MDTA will make every effort to minimize inconvenience to its customers and encourages drivers to use caution while traveling.  
Thank you for your patience.*
